Technical Skills

Languages: JavaScript (ES6+), HTML5, CSS3, Java

Frontend: React.js, Next.js, TypeScript, HTML5, CSS3

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Express Middleware

Databases: MongoDB, MySQL

Tools: GitHub, Redux Toolkit, VS Code, Vercel, Netlify

Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Experience

Vizhi XR | [certificate](#)

April 2026 – June 2026

Web development Intern

Madurai, India

- Developed and enhanced responsive web applications using **React.js**, **Node.js**, and **MongoDB**, improving **mobile responsiveness**, refining **UI**, and ensuring a seamless experience across devices.
- Implemented and integrated **JWT Authentication** for secure user access, while debugging, testing, and resolving front-end issues to improve application reliability and performance.
- Designed and customized modern **portfolio web pages**, collaborated on feature enhancements, and contributed to the implementation of scalable **full-stack web solutions** following industry best practices.

Projects

Smart Supermarket Billing System | React.js, Node.js, Express.js, MongoDB, Socket.io, JWT Authentication | [Live](#)

- Developed a **real-time Smart Point-of-Sale (POS) and Barcode Billing System** using the **MERN Stack**, enabling wireless smartphone-based barcode scanning through **Socket.io** without requiring dedicated scanner hardware.
- Implemented **WebSocket-based** communication for instant synchronization between the cashier dashboard and mobile scanner, integrated **JWT Authentication** with **role-based access control**, and built dynamic billing features including cart management, tax calculation, discounts, and payment processing.
- Engineered a scalable full-stack architecture by integrating **MongoDB**, optimizing **CORS** handling and environment-based API configuration for production deployment, and resolving real-time connection challenges to ensure reliable cross-device communication.

Collaborative Code Editor | React.js, Node.js, Express.js, Socket.IO, Monaco Editor | [Live](#)

- Developed a **real-time Collaborative Code Editor** using the MERN ecosystem and **Socket.IO**, enabling multiple users to edit code simultaneously in shared coding rooms with instant synchronization.
- Integrated the **Monaco Editor** to provide a VS Code-like coding experience with syntax highlighting, multi-language support, automatic indentation, and a responsive user interface for collaborative programming.
- Engineered a scalable client-server architecture with **WebSocket-based communication**, implementing room-based collaboration, low-latency code synchronization, and production deployment for seamless multi-user access.

Education

Kalasalingam Academy Of Research And Education

Tamil Nadu, India

B.Tech, Information Technology | **CGPA: 8.29**

Sept 2022 – June 2026

Keren Public School

Tamil Nadu, India

HSC with Computer Science: 77.6%

May 2022

Certifications

Udemy | Web Development Bootcamp – 2026 [ [Asmitha_web development.pdf](#)]

JP Morgan Chase & Co. | Software Engineering Virtual Experience (Forage)-2026 [ [JP Morgan_Simulation certificate.pdf](#)]

Udemy | React – The Complete Guide (incl. Next.js, Redux)-2026 [ [React - The Complete Guide\(incl. Next.js, Redux\).pdf](#)]

LEADERSHIP EXPERIENCE

FRAMES 24 CLUB | *Secretary and Girls coordinator*

KARE-2023

- Organised and managed multiple events in collaboration with industry partners, strengthening professional exposure and real-world learning.
- Played a key role in founding the club, the organization exclusively focused on design within the institution.
