SUMMARY

Software Developer with experience in building scalable applications and responsive web interfaces using JavaScript, React.js, Node.js, and modern frameworks. Skilled in developing full-stack solutions, implementing RESTful APIs, and working with databases such as MongoDB and Firebase. Strong foundation in data structures, object-oriented programming, and writing clean, maintainable code following best practices. Completed a Software Engineering Virtual Experience with JP Morgan Chase & Co., gaining hands-on experience in application development, debugging, and professional development workflows.

EDUCATION

Kalasalingam Academy Of Research And Education

Bachelor of Technology

Information Technology: CGPA:8.27

Keren Public School

HSC with Computer Science:77.6%

Tamil Nadu, India

September 2022 - May 2026

Tamil Nadu, India

May 2022

SKILLS

- **Languages:** Java, JavaScript
- **Frontend:** HTML, CSS, React.js
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, Firebase, SQL
- **Tools:** GitHub, VS Code
- **Core Concepts:** Data Structures & Algorithms, OOP, REST APIs

EXPERIENCE

Software Engineering Virtual Experience (Simulation) – Forage

October 25- January 26

Completed a Software Engineering Virtual Experience with JP Morgan Chase & Co., gaining practical exposure to real-world development workflows. Applied object-oriented programming principles to design and improve code structure and modularity. Performed debugging, code analysis, and basic performance optimization to enhance application reliability. Utilized Git and followed industry-standard practices for version control and collaborative development.

PROJECTS

Personal Portfolio Website | Feb 2026

Live Application: <https://asmithapari-23.github.io/Portfolio/index.html>

- Built multi-page responsive portfolio with separate HTML5, CSS3, JavaScript (ES6+).
- Implemented dark/light theme toggle using JavaScript and localStorage.
- Added smooth animations and modern UI components.

Technologies: HTML5, CSS3, JavaScript (ES6+)

Mentoring Call Scheduling System | March 2026

Live Application: <https://mentoring-project-5kavbyu7z-asmithapari-23s-projects.vercel.app>

- Built a role-based mentoring scheduling system using React and Node.js.
- Implemented availability-based matching logic for efficient mentor-user pairing.
- Developed REST APIs and deployed a live full-stack application.

Technologies: HTML5, CSS3, JavaScript (ES6+) ,React.js, Node.js, Express.js, REST APIs, Vercel (Deployment)

CERTIFICATES

Udemy | Web Development Bootcamp – 2026[ Asmitha_web development.pdf]

JP Morgan Chase & Co.|Software Engineering Virtual Experience (Forage)-2026[ JP Morgan_Simulation certificate.pdf]

LEADERSHIP EXPERIENCE

FRAMES 24 CLUB

KARE-2023

Secretary and Girls coordinator

- Organised and managed multiple events in collaboration with industry partners, strengthening professional exposure and real-world learning.
- Played a key role in founding the club, the organization exclusively focused on design within the institution.
